Title:	Financial Assistance Policy		
Effective Date:	Revision Date:	Annual Review Date:	Board Approval Date:
01/01/2010	7/2025		

PURPOSE

The purpose of the policy is to provide patients with information on the Financial Assistance Policy for Charity Care (Free Care) and Discounted Care available at Joyce Eisenberg Medical Center/Auerbach Geriatric Psychiatry Unit (“AGPU” or “Hospital”) and to outline the process to determining eligibility for Financial Assistance.

POLICY

It is the policy of AGPU to provide patients with understandable written information regarding financial assistance to provide income-based financial assistance (charity care) and discounted care to qualified patients.

SCOPE

This policy applies only to AGPU, which is a 10-bed acute geriatric psychiatric hospital. AGPU does not provide emergency room services, surgery, or other acute medical care. This policy does not apply to physicians or any other medical providers whose services are not included in Hospital’s bill. Additionally, this policy does not create an obligation for the Hospital to pay for such physicians’ or other medical providers’ services.

DEFINITIONS

Federal Poverty Level (FPL): The “Federal Poverty Level” or “FPL” is the measure of income level that is published annually by the United States Department of Health and Human Services (HHS) and is used by Hospitals for determining eligibility for Financial Assistance.

Hospitals Services: “Hospitals Services” are all services that the AGPU is licensed to provide.

Primary Language of Hospital Service Area: A “Primary Language of Hospital’s Service Area” is a language used by the lesser of 1,000 people or 5% of the community served by the Hospital based upon the most recent Community Health Needs Assessment performed by Hospital.

Charity Care: Free care provided when the patient is not expected to pay an obligation for services and items provided by AGPU based on qualification criteria.

Discounted Care: A reduction from patient payment obligations for services and items provided by AGPU based on qualification criteria.

Discounted Payment: Any charge for care that is reduced but not free.

Uninsured Patient: An “Uninsured Patient” is a patient who has no third-party source of payment for any portion of their medical expenses, including without limitation, commercial

or other insurance, government sponsored healthcare benefit programs, or third party liability, and includes a patient whose benefits under all potential sources of payment have been exhausted prior to an admission.

Insured Patient: An “Insured Patient” is a patient who has a third-party source of payment for a portion of their medical expenses.

Patient Responsibility: “Patient Responsibility” is the amount that an Insured Patient is responsible to pay out-of-pocket after the patient’s third-party coverage has determined the amount of the patient’s benefits.

High medical costs: For these purposes, “high medical costs” means any of the following:

- 1) Annual “out-of-pocket” costs incurred by the individual at the hospital that exceed the lesser of 10 percent of the patient’s current family income or family income in the prior 12 months.
- 2) Annual “out-of-pocket” expenses that exceed 10 percent of the patient’s family income, if the patient provides documentation of the patient’s medical expenses paid by the patient or the patient’s family in the prior 12 months.

For these purposes, “out-of-pocket” costs and expensed are defined as any expenses for medical care that are not reimbursed by insurance or a health coverage program such as Medicare co-pays or Medi-Cal cost sharing.

PROCEDURES

A. ELIGIBILITY

1. Eligibility Criteria: During the application process set forth in sections B and C below, the Hospital shall apply the following eligibility criteria for Financial Assistance:

Federal Poverty Level	Patient Eligibility Criteria	Available Discount
Less than or equal to 200%	Patient is an Uninsured Patient or an insured patient with high medical costs with a Family Income at or below 200% of the most recent FPL	Full write off of all charges for Hospital Services
Greater than 200% but less than or equal to 300%	Patient is an Uninsured Patient or an insured patient with high medical costs with a Family Income greater than 200% and less than 300% of the most recent FPL	A 75% write-off of all charges for Hospital Services
Greater than 300% but less than or equal to 400%	Patient is an Uninsured Patient or an insured patient with high medical costs with a Family Income greater than 300% and less than 400% of the most recent FPL	A 50% write-off of all charges for Hospital Services

Patient Income: In order to provide consistency with AGPU's mission and proper stewardship of AGPU's funds, all income of the patient and patient's family are taken into account in reviewing a Financial Assistance application.

1. **Calculating Family Income:** To determine a patient's eligibility for Financial Assistance, the Hospital shall first calculate the patient's Family Income, as follows:
 - a) **Patient Family:** The patient's family includes their spouse, domestic partner, and dependent children of any age.
 - b) **Proof of Family Income:** For charity care or discounted care, the patient shall be required to provide recent pay stubs or tax returns as proof of income. Family Income is annual earnings of all members of the Patient Family based on either of the following:
 - a. Pay stubs within a 6-month period before or after the patients was first billed.
 - b. Income tax returns for the year in which the patient was billed or up to twelve months prior to when the patient was first billed

- c. Annual income may be determined by annualizing year-to-date Family Income. AGPU may validate income by using external presumptive eligibility service providers, provided that such service determines eligibility using only information permitted by this policy.
 - d. Calculating Family Income for Expired Patients: Expired patients, with no surviving spouse, may be deemed to have no income for purposes of calculation of Family Income. The surviving spouse of an expired patient may apply for Financial Assistance.
2. Calculating Family Income as a Percentage of FPL: After determining Family Income, Hospital shall calculate the Family Income level in comparison to the FPL, expressed as a percentage of the FPL. For example. If the Federal Poverty Level for a family of three is \$20,000, and a patient's Family Income is \$60,000, the Hospital shall calculate the patient's Family Income to be 300% of the FPL. The Hospital shall use this calculation during the application process to determine whether a patient meets the income criteria for Financial Assistance.

B. APPLICATION PROCESS

1. AGPU shall make all reasonable efforts to obtain from the patient or his or her representative information about whether private or public health insurance may fully or partially cover the charges for care rendered by the Hospital to a patient. A patient who indicates at any time the financial inability to pay a bill for Hospital Services shall be evaluated for Financial Assistance. In order to qualify as an Uninsured Patient, the patient or the patient's guarantor must verify that he or she is not aware of any right to insurance or government program benefits that would cover or discount the bill. All patients should be encouraged to investigate their potential eligibility for government program assistance if they have not already done so.
2. Patients who wish to apply for Financial Assistance shall use the AGPU standardized application form, the "Application for Financial Assistance", Exhibit B
3. Patients may request assistance with completing the Application for Financial Assistance by contacting the Program Director or Social Worker in person at the AGPU, or via phone at 818-758-5045 or 818-758-5038.
4. Patients should mail Applications for Financial Assistance to JEKMC at 7150 Tampa Ave. Reseda, CA 91335 Attn: Fiscal Department.
5. Patients should complete the Application for Financial Assistance as soon as possible after receiving Hospital Services, however eligibility for discounted payment or charity care shall be determined at any time the hospital is in receipt of the

information requested. Hospital does not impose time limits for financial assistance application nor deny eligibility based on timing of a patient's application.

C. FINANCIAL ASSISTANCE DETERMINATION

1. AGPU will consider each applicant's Application for Financial Assistance and grant Financial Assistance when the patient meets the eligibility criteria set forth in section A.1 and has received (or will receive) Hospital Service(s). Patients who apply/qualify only for discounted care may receive less financial assistance than what may be available to them under charity care. AGPU uses one uniform application for both and will evaluate each application for free care and/or discounted care based upon eligibility criteria in each program.
2. Patients also may apply for governmental program assistance, which may be prudent if the patient requires ongoing services.
 - a) The Hospital should assist patients in determining if they are eligible for any governmental or other assistance, or if a patient is eligible to enroll with plans in the California Health Benefit Exchange (i.e. Covered California).
 - b) If a patient applies, or has a pending application, for another health coverage program at the same time that he or she applies for Financial Assistance, the application for coverage under another health coverage program shall not preclude the patient's eligibility for Financial Assistance.
3. Once a determination has been made regarding eligibility for Financial Assistance, a "Notification Form" (Exhibit D) will be sent to each applicant advising them of the Hospital's decision.
4. Patients are presumed to be eligible for Financial Assistance for a period of one year after the Hospital issues the Notification Form to the patient. After one year, patients must re-apply for Financial Assistance.
5. If the Financial Assistance determination creates a credit balance in favor of a patient, the refund of the credit balance shall include interest on the amount of the overpayment from the date of the patient's payment at the statutory rate (10% per annum) pursuant to Health and Safety Code section 127440, provided that Hospitals are not required to refund a credit balance that is, together with interest, less than five dollars (\$5).

D. DISPUTES

A patient may seek review of any decision by AGPU to deny Financial Assistance by notifying the AGPU Program Director of the basis of the dispute and the desired relief within thirty (30) days of the patient receiving notice of the circumstances giving rise to the dispute.

Patients may submit the dispute orally or in writing. The AGPU Program Director shall review the patient's dispute as soon as possible and inform the patient of any decision in writing.
