

I. SETTING

Medical Center

II. PURPOSE

The University of California, Davis Health (UC Davis Health) strives to provide quality patient care and high standards for the communities we serve. This policy demonstrates UC Davis Health's commitment to our mission and vision by helping to meet the needs of the low income, uninsured patients, and underinsured patients in our community. This policy is not intended to waive or alter any contractual provisions or rates negotiated by and between a Health System and a third-party payer, nor is the policy intended to provide discounts to a non-contracted third-party payer or other entities that are legally responsible to make payment on behalf of a beneficiary, covered person, or insured.

The purpose of this policy is to provide financial assistance to patients who meet specific eligibility criteria. This policy applies to uninsured patients who have not received any discounts through third-party coverage (such as government programs, co-pay assistance programs, or other financial assistance), and whose income is at or below 400% of the Federal Poverty Level (FPL). It also applies to insured patients with high medical costs whose medical expenses exceed 10% of their family annual income and whose income is at or below 400% of the FPL. Patients meeting the applicable criteria are eligible for a 100% charity care adjustment under the applicable payment policy. Uninsured patients who do not meet the criteria for Charity Care under this policy may be referred to Policy [1851](#), Patient Payment Discount.

The financial screening criteria provided for in this policy are based primarily on the FPL guidelines updated periodically in the Federal Register by the United States Department of Health and Human Services. This policy is intended to comply with Section 501(r) of the Internal Revenue Code (IRC) as well as California Health & Safety Code section 127400 et seq. (AB 774 and AB1503), Hospital Fair Pricing Policies, effective January 1, 2007 and Emergency Physician Fair Pricing Policies, effective January 1, 2011, and January 1, 2015 (SB1276) and Office of Inspector General (OIG), Department of Health and Human Services guidance regarding financial assistance to uninsured and underinsured patients.

The term “Medicare fee-for-service” includes only health insurance available under Medicare parts A and B of Title XVII of the Social Security Act (42 U.S.C. 1395c through 1395w-5) and not health insurance plans administered under Medicare Advantage.

Screened patients' financial information will be monitored as appropriate.

- B. Patients without third party coverage will be financially screened for eligibility for state and federal governmental programs as well as charity care funding at the time of service or as near to the time of service as possible. If the patient does not indicate coverage by a third-party payer, or requests a discounted price or charity care, the patient should be provided with information on how to obtain an application for the Medi-Cal program, California Children's Services (CCS) or state funded governmental program before the patient leaves the hospital, emergency room or other outpatient setting.
- C. High Medical Cost Patients with third party coverage will be screened by a Financial Counselor in the Admitting Department or Patient Financial Services to determine whether they qualify as a High Medical Cost Patient. Upon patient request for charity care, the patient will be informed of the criteria to qualify as a High Medical Cost Patient and the need to provide receipts if claiming services rendered at other providers in the past twelve months. It is the patient's decision as to whether they believe that they may be eligible for charity and wish to apply. However, the hospital must ensure that all information pertaining to the Charity Care Policy was provided to the patient.
