B. Calculating Patient's family income: To determine a Patient's eligibility for Financial Assistance, CMC shall first calculate the Patient's family income, as follows:
   1. Patient's family income is the annual earnings of the members of the Patient's Family, as defined in Section II.R. above, from the prior twelve (12) months or prior tax year as shown by the recent pay stubs or income tax returns, less payments made for alimony and child support. Monetary assets will not be considered when determining family income. Annual income may be determined by annualizing year-to-date family income.

i. Calculating family income for Deceased Patients: Deceased Patients with no surviving spouse, may be deemed to have no income for purposes of calculation of Patient's family income. Documentation of income is not required for deceased Patients; however, documentation of estate assets may be required. The surviving spouse of a deceased Patient may apply for Financial Assistance.

ii. For purposes of calculating the Patient's current family income to determine High Medical Costs, as defined in Section II. K. above, certain situations may be based on three (3) months to determine the Patient's current family income.

2. Calculating Patient's family income as a Percentage of FPL: After determining a Patient's family income, CMC shall calculate the Patient's family income level in comparison to the FPL, expressed as a percentage of the FPL. For example, if the FPL for a family of three is $20,000, and a Patient's family income is $60,000, CMC shall calculate the Patient's family income to be 300% of the FPL. This calculation shall be used to determine whether a Patient meets the criteria for Financial Assistance.
3. Calculating family income to determine presumptive eligibility for Financial Assistance: If an Uninsured Patient does not request or return a completed Application for Financial Assistance, at no less than 150 days after providing the Patient with a post-discharge billing statement, CMC may screen the Patient for Presumptive Eligibility for Financial Assistance using demographic software of an external service provider. If the demographic software indicates the Patient likely qualifies for Full Charity Care, CMC will provide the Patient with a complete write-off of CMC's undiscounted charges for Covered Services.
4. Proof of family income: Patients shall only be required to provide recent pay stubs or tax returns as proof of income (except in the case of enrollment in government programs, as outlined in this policy).

C. Financial Assistance Exceptions: The following are circumstances in which Financial Assistance may not be available under this policy:

1. Medi-Cal Patients with Share of Cost: Medi-Cal Patients are eligible for Financial Assistance for the purpose of reducing the amount of Share of Cost owed. Community Medical Centers shall seek to collect these amounts from patients.
2. Insured Patient Does Not Cooperate with Third-Party Payer: An Insured Patient who is insured by a third-party payer that refuses to pay for services because the patient failed to provide information to the third-party payer necessary to determine the third-party payer's liability may not be eligible for Financial Assistance unless Insured Patient shows good cause for the failure at any point through and including participation in an Extraordinary Collection Action.

3. Payer Pays Patient Directly: If a Patient receives payment for services directly from an indemnity, Medicare Supplement, or other payer, the Patient may not be eligible for Financial Assistance for the amounts paid by that payer.
4. Information Falsification: Community Medical Centers may refuse to award Financial Assistance to patients who falsify information regarding income, household size, or other information in their eligibility application.
5. Third Party Recoveries: If the Patient receives a financial settlement or judgment from a third-party Tortfeasor that caused the patient's injury, the patient must use the settlement or judgment amount to satisfy any Patient account balances and may not be eligible for Financial Assistance.
6. Professional (Physician) Services: Services of physicians such as anesthesiologists, radiologists, hospitalists, pathologists, etc. are not covered under this policy, though medical debt to such providers will be included in calculating High Medical Costs. Many physicians have charity care policies that allow patients to apply for free or discounted care. Patients should obtain information about a physician's charity care policy directly from their physician.

D. Application Process

1. Community Medical Centers shall provide the Plain Language Summary of the Financial Assistance Policy and the Application for Financial Assistance when it provides the good faith estimate prior to services.
2. Community Medical Centers shall make all reasonable efforts to obtain from the Patient or his/her representative, information about whether private or public health insurance may fully or partially cover the charges for care rendered by CMC to Patient. If CMC bills a Patient who has not provided proof of coverage by a third party at the time the care is provided or upon discharge, as a part of that billing, CMC shall provide the Patient with a Notice of Rights.
3. A Patient who indicates at any time, through and including referral for Extraordinary Collections Action, that they are financially unable to pay a bill for hospital services shall promptly be given the opportunity to have their eligibility for Financial Assistance evaluated by CMC's Patient Financial Services Department. Community Medical Centers shall attempt to contact the Patient by mail and by telephone to attempt to determine if patient's household income is less than 400% of the FPL. If the Patient indicates his/her household income is less than 400% of the FPL, CMC shall notify Patient of availability and potential eligibility for financial assistance and promptly provide an application.
4. To qualify as an Uninsured Patient, the Patient or the Patient's guarantor must verify that he/she is not aware of any right to insurance or government program benefits that would cover or discount the bill.

5. All Patients will be encouraged to investigate their potential eligibility for government program assistance if they have not already done so. Community Medical Centers or its authorized representatives will provide an application for the Medi-Cal program or other government funded programs if the Patient indicates they do not have coverage by a third-party payer or requests Financial Assistance. Community Medical Centers will also attempt to assist Patients in determining whether they are eligible to enroll with plans in the California Health Benefit Exchange (i.e., Covered California). However, application in any of these programs is not required to apply for or receive financial assistance.
6. Patients are required to make every reasonable effort to provide CMC with documentation of income and health benefits coverage. Patients who are insured but fail to provide CMC with necessary insurance and/or income information may be denied Financial Assistance.

2. Information concerning income obtained as part of the eligibility process shall be maintained separately from the files used to collect the debt and shall not be used for collections activities either by CMC or by any collection agency engaged by CMC, unless independently obtained by CMC or the collection agency.
3. Community Medical Centers will not make Financial Assistance determinations based on information that CMC and any collection agencies acting on its behalf have reason to

believe is unreliable, incorrect, or obtained from the Patient under duress or through the use of coercive practices.

4. If a Patient applies or has a pending application for another health coverage program at the same time that he or she applies for Financial Assistance, the application for coverage under another health coverage program shall not preclude the Patient's eligibility for Financial Assistance.
5. Financial Assistance Applications should be reviewed promptly. Community Medical Centers shall complete its determination of eligibility within 45 days of receipt of the application. A determination will be postponed while insurance or other sources of payment are still pending.
6. Once a Financial Assistance determination has been made, a notification will be sent to each applicant advising them of CMC's decision.

8. If a Patient is approved for Financial Assistance under this policy, but after the initial application and approval process it is determined that Patient is ineligible due to a third-party payer, the charges shall be reinstated, and CMC shall pursue the third-party payer to obtain payment on the Patient's account. If it is later determined that the third-party payer is not responsible for payment of the Patient's charges, the Patient's eligibility shall be reinstated without requiring a new Application for Financial Assistance.
9. Once a determination is made that a Patient is eligible for Financial Assistance, the Patient is presumed eligible for Financial Assistance covering all outstanding bills for Covered Services as of the date CMC issues the Notification Form to the Patient, as well as Covered Services for a period of six (6) months following that date. After this six-month period has ended, Patients must re-apply for Financial Assistance.
10. If the Financial Assistance determination creates a credit balance in favor of the Patient, the refund of the credit balance shall be made within thirty (30) days from the date of the Patient's payment and must include interest on the amount of the overpayment from the date of the Patient's payment at the statutory rate (currently 10% per annum) pursuant to Health and Safety Code section 127440. Refunds under this section are not required if: (a) five years or more since the Patient's last payment to CMC or (b) the debt was sold prior to January 1, 2022.

11. If a Patient is determined eligible for Discount Payment, CMC will provide the Patient with a billing statement that indicates the amount the Patient owes and how that amount was determined.
12. 12. Reasonable Payment Plans: Financially Qualified Patients who do not qualify for Full Charity Care shall be eligible for a Reasonable Payment Plan. Community Medical Centers and the Patient shall negotiate the terms of the plan, taking into consideration the Patient's family income and essential living expenses. If CMC and the Patient cannot agree on the Reasonable Payment Plan, CMC shall use the formula described in Section II. T. of this policy to create a Reasonable Payment Plan. Payment plans shall be offered and negotiated per CMC's Billing and Collections Policy

F. Disputes

A Patient may seek review of any decision by CMC to deny Financial Assistance by notifying Patient Financial Services of the basis for the dispute and the desired relief within thirty (30) days of the Patient receiving the notice of the circumstances giving rise to the dispute. Patients may submit the dispute orally by calling Patient Financial Services at (559) 459-3939 or in writing by mailing the above information to Community Medical Centers, Patient Financial Services Department, P.O.
